(54) INFORMATION OUTPUT CONTROL METHOD BY COLLATION OF IMAGES AND INFORMATION DISPLAY

(57)Abstract:

PROBLEM TO BE SOLVED: To provide an information output control method and an information display by collation of images to use the image as a secret key (password).

SOLUTION: An object 30 is photographed, registered (stored) as a secret key image 31 and made to correspond to stored secret information. When the secret information is observed, an object with the same shape with the secret key image 31 is photographed, the photographed image is collated with the secret key image 31 and when they match, the secret key is released and the secret information is displayed.
